Re: Prolyte press release

Prolyte Spaces out on the Prolight+Sound Exhibition

Space roof

This years exhibition will feature the massive space roof system to crown the Prolyte stand in Frankfurt. Prolyte considers the exhibition as a unique opportunity to show off the possibilities of this new roof system.

Products in highlight

Apart from the Space roof, Prolyte will bring a wealth of product samples to the show. Each of the product categories, Truss, Stage DEX, Barriers, Theatre products and Prolyft, will be represented with various products will be on display, including the new line up of rigging hardware and controls.

Price actions

Next to that Prolyte will start 3 smashing price actions. List prices of the H series truss and box corners and the standard LED support systems will be reduced with 15% till July 2010. This is THE opportunity to invest in real Prolyte truss at very affordable rates!

New developments

Furthermore we have some new developments in the stand, like the D75T truss, Snake Gate Barrier and the Power Fly winch.

All in all reason enough to stop by for a visit. The Prolyte team is available for any product or sales related questions or just for some business gossip.

Please note that we have moved to another hall. Prolyte. Hall 11.1 B57
