to let your business grow

PROLYTE CAMPUS - SEMINAR DAY 30-11-2011 EMSDETEN GERMANY

Free Seminar day

As part of the Prolyte Campus activities, Prolyte Group organizes 30 November 2011 a Prolyte Seminar day at Prolyte Products GmbH in Emsdetten, Germany. You are invited to attend this free seminar and have the unique opportunity to get first hand product and up-to-date technical information from a selection of recognized speakers and members of the Prolyte Group team.

Meet & Greet

A conclusive BBQ will offer the opportunity to network and to share your experiences with fellow technicians and industry professional. Furthermore you can speak with members of the Prolyte Group team individually and ask all you ever wanted to know about the "how and why" of trussing, staging and hoisting technology.

Programme

The seminar day will start at 13.00 hours and will end at 21.00 hours.

Starting with the official kick off of the Prolyte Campus initiative, all participants are offered a sneak preview on the Prolyte Campus Seminar programme. Four short lectures on topics like new products, new regulations, consequences of the implementation of the new Eurocode for our industry, what to learn from recent accident with stages will bring you up to date with current developments within our industry.

These seminars are followed by a network session, offering food and drink for all attending.

Apart from Prolyte Group team members Marc Hendriks and Matthias Moeller, Stefan Kransenbrink and Frank Bastians will lecture on this day.

Recognized industry professionals are invited to join us for this afternoon.

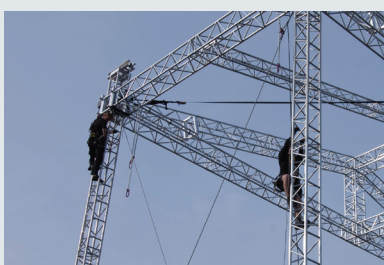

How to apply?

Please send your details to info@prolyte.eu if you want to participate. You will receive a confirmation well in advance of the day. Participants are selected on a first come first served basis.

Why this initiative?

Prolyte Campus is a Prolyte Group initiative to support its customers with the best and most up-to-date knowledge available. Providing the tools and training to use the Prolyte Group products safely and in compliance with applicable standards and regulations will help you perform better. Prolyte Campus will offer a complete program of learning activities to create awareness on the safe use of its products.
