Flex Cart

Features

The Prolyte Flex Cart is a robust and adaptable aluminum-frame cart designed for efficient transport and storage of cables, lighting equipment, and boxes. Whether you're organizing gear for a production or optimizing backstage logistics, this cart offers multiple transit solutions to suit your needs.

Advantages

- Compact flat box design – Optimized for efficient transport
- Truck-compatible dimensions – 1,8 x 1,8 x 0,8m for a perfect fit
- Customizable configurations – Adaptable to various needs
- Full 360° protection – Equipped with bumpers for enhanced safety
- Durable & user-friendly – Strong yet easy to handle
- High load capacity – Supports up to 400 kg
- Branding option – Custom logo available upon request
